

## CENTRE FOR HUMAN RIGHTS

### **Dialogue on xenophobia, nationality and equality in South Africa**

The aim of this dialogue is to contribute to the University of Pretoria's various initiatives to foster a culture of diversity. In light of the recent xenophobic attacks in South Africa, the dialogue is a platform to critically analyse the National Action Plan to Combat Racism, Racial Discrimination, Xenophobia and related Intolerances and to collectively explore pragmatic ways and interventions in which both the state and non-state actors can counter xenophobia within our borders.

### **#AfricanMigrantsMatter**
