

## **QUESTIONS - CLARIFICATION OF FACTS**

Clarification questions submitted were thoroughly considered by the Steering Committee and it concluded that there are no further clarifications needed for purposes of pleading. In reaching this conclusion, the Steering Committee noted that clarifications sought were either already clear in the Hypothetical Case; reasonable inference can be drawn on a particular issue; the information sought is not necessary for the purposes of pleading and/or the question asked is, in fact, a matter for the parties to argue or plead.
